Rethinking the Blue Economy: Socio-Ecological Impacts & Opportunities (RethinkBlue)

Dear RethinkBlue Members,

We would like to express our sincere thanks to all members for your ongoing efforts and contributions to the RethinkBlue COST Action. Your collaboration and commitment are essential to achieving our mutual objectives.

Our special gratitude goes to those involved in ongoing projects and publications in their WGs, as well as those who participated in third-party conferences and short-term scientific missions.

Additionally, each year, we wish to recognize those members of our Action who actively contributed their time, expertise and enthusiasm in helping to get our Action up and running. Much of this work goes on “behind the scenes” in task forces and organizing teams. Despite their invaluable contributions and achievements, the names of those involved may not appear directly in the Action’s outputs.

This year, we would like to acknowledge and express our gratitude to the following individuals for their contributions:
